

Sprint 2 Report

Actions to stop doing:

- Delaying important meetings if someone cannot make it
- missing stand-ups

Actions to start doing:

- following an agreed style guide
 - Formats (naming functions, variables) for html, css, js, etc.
- Decide on what to do in cases of missing information and other visual choices
 - display not listed or don't display at all

Actions to keep doing:

- Having reviewers for pr's
- Keeping code modular
- Use JIRA for project planning
- Add comments to functions
 - Add initials for comments
- Add more work to each sprint in preparation for a less work-heavy sprint 4
- Add visual of how popup should look like for each sprint

Work completed/not completed:

Completed

- Use the api to fetch prof photo(if available) and display it within the pop up
- Handle edge case where photo isn't available and render a default pfp
- Format the image/default pfp to fit nicely in the popup using css styling
- Use the api to fetch prof OH and display it within the pop up
- Deal with the case that OH are not posted on the directory
- Use the api to fetch prof department and display it within the pop up
- Use the api to fetch prof division and display it if different from department
- Use the api to fetch classes taught by professor if available and display it
- Use api to fetch research interests and display them if available
- Use the api to fetch prof email and display it within the pop up
- Use the api to fetch the prof phone number and display it within the pop up
- Find other places on the ucsc website where professor research are displayed and that we might be able to scrape

Not Completed

Work completion rate:

- 12/12
