Pop-up visual

Sprint Goal

- Create a pop up that contains information relating to professors regarding their email/phone number, profile picture(if available), office hours, department, division, classes they teach, and research interests.

User Stories

1. **User story:** [As a student I want to know the email/phone number of a professor so that I can have a way to contact them regarding information about the class\(2 points\)](#)

- **Tickets:**
 - Use the api to fetch prof email and display it within the pop up (1) - Bhagavan
 - Use the api to fetch the prof phone number and display it within the pop up(1) - Bhagavan
- 2. **User story:** As a student I want to see a picture of the professor so I can recognize them in person.(3 points)
 - **Tickets:**
 - Use the api to fetch prof photo(if available) and display it within the pop up (1) - Ivan
 - Handle edge case where photo isn't available and render a default pfp(1) - Ivan
 - Format the image/default pfp to fit nicely in the popup using css styling(1) - Ivan
- 3. **User story:** As a student I want to know the OH of a professor so I can figure out my entire schedule(3 points*)
 - **Tickets:**
 - Use the api to fetch prof OH and display it within the pop up (1) - Edwin
 - Deal with the case that OH are not posted on the directory (1) - Edwin
- 4. **User story:** As a student I want to know what department a professor is in so that I know their specialty. (1 point)
 - **Tickets:**
 - i. Use the api to fetch prof department and display it within the pop up(1) - Edwin
- 5. **User story:** As a new student I want to know the division/other classes taught by a professor so that I can recognize the division name when people talk about it. (2 points)
 - **Tickets:**
 - Use the api to fetch prof division and display it if different from department (1) - Lakshana
 - Use the api to fetch classes taught by professor if available and display it (1) - Lakshana
- 6. **User story:** As a student interested in research I want to see if a professor has research interests so that I can connect with them. (3 points)
 - **Tickets:**
 - Use api to fetch research interests and display them if available (1) - Bhagavan
 - Find other places on the ucsc website where professor research are displayed and that we might be able to scrape (2) - Bhagavan
