

Sprint 3

Dates: 11/5 - 11/19

Scrum Master: Baghavan

[Scrum Board](#)

Meetings:

Days/Time:

T - 2:45 PM - 3:00 PM (in person)

Th - 4:30 PM - 4:45 PM (discord)

S - 10:45 AM - 11 AM (discord)

[API example](#)

Pop-up visual

Sprint Goal

- Display Rate My Professor Information
- Display links from Professors (broken on the api)
- Display the popup in the Shopping Cart page

Note

- When picking tickets, focus on related tasks(i.e. If picking a ticket for scrapping, do all the scrapping tickets, caching tickets, etc...)

User Stories

1. **User Story:** As a student I want a link to the professor's publications so that I can see more information about them and their courses that they consider important.(**3 points**)
 - **Tickets:**
 - Scrape publication link from campus staff directory (**2 points**) - **Lakshana**
 - display link in our UI (**1 point**) - **Lakshana**
2. **User Story:** As a student I want a link to the professors website so that I can learn more about them (**3 points**)
 - **Tickets:**
 - Scrape website link from campus staff directory (**2 points**) - **Lakshana**
 - display link in our UI (**1 point**) - **Lakshana**
3. **User Story:** As a student I want easy access to the Rate My Professor(RMP) rating of the professor so I know if other students generally enjoyed their class. (**6 points**)
 - **Tickets:**

- Incorporate the RMP graphql endpoint into the extension. To test that it works, print "Success" in the console upon a successful connection.(2 points) - Ivan
 - Use a fuzzy-search library(Fuse.js) to match professor names to their corresponding name on RMP(handle cases where the professor doesn't have a profile.) To make sure it works, print the professor name and its corresponding name on RMP in the console.(2 points) - Ivan
 - Fetch the professor rating using the graphql endpoint. To test that it works, print the professor's name and their rating in the console.(1 points) - Ivan
 - Display the professor's rating and a link to their page.(1 point) - Ivan
4. **User Story:** As a student I want to know the professor's Rate My Professor tags so that I know what to expect from them. (4 points)
- **Tickets:**
 - Fetch the professor's tags using the graphql endpoint. To test that it works, print the professor's name and their tags in the console.(3 points) - Ivan
 - Display the tags in the popup (1 point) - Ivan
5. **User Story:** As a student I want to have this information also available in the shopping cart page so that I can better plan my quarter. (4 points)
- **Tickets:**
 - Make the open and close button appear on the 4shopping cart page for both the shopping cart div and the class schedule div (3 points) - Bhagavan
 - check if correct page using mutation observer
 - Stylize via CSS to make it look nice (1 point) - Bhagavan
6. **User Story:** As a browser I want websites and extensions I use to load quickly so I don't have to wait for information (5 points)
- **Tickets:**
 - Figure out how to cache information (probably a dict of dicts) (3 points) - Edwin
 - Cache information from directory api (1 point) - Edwin
 - Cache information from Rate My Professor (1 point) - Edwin

Backlog

7. **User Story:** As a browser I want extensions I use to look nice so that I enjoy using them more (8 points)
- **Tickets:**
 - For info from api that isn't there don't display instead of having Not Listed (1 point)
 - Make the pop-up appear to the right side panel using a more info button. (3 points) Ivan

- design UI (styles) for popup
 - make the show prof info button blend better with the enrollment UI by using [material UI](#) (2 points) **Edwin**
 - make UI for displaying the Rate My Professor rating using stars (2 points) **Edwin**
 - ??? need to discuss
8. **Ticket** - Scrape again for remaining uIDs (2 points) **Edwin**
- Need to make sure that all uIDs are available
 - Same for staff directory URL
9. **Ticket** - Scrape for research topics for science professors on this [url](#) (3 points) **Edwin**
- and display this if nothing from the directory api
10. **Spike**: Find places to scrape classes a professor will be teaching or has taught (1 point) **Bhagavan**
11. **User Story**: As a student I want to know what other classes a professor teaches so that I can explore them if I am interested in the class or like their teaching style. **(8 points)**
- **Tickets: tbd (scraping job)**
12. **User Story** - As a student I want a summary of professor info so I can get a general overview instead of spending time looking through everything.
- idea: you want to see the info for a Professor, you can click on a 'summarize' button and it takes all the info in the card and summarizes it for you
